Three sleepless nights  
This isn't how it's supposed to be  
But you're so good at taking your time  
To give back to me  
I will wait for you forever  
If you would just ask me  
I thought that I could change you  
But you changed me  
But it doesn't feel right  
Holding someone else's hand  
Together on phone lines  
And living at two opposite ends  
It scares me to think that you could find takers  
Other than me and better than me  
But your head is elsewhere  
And I'm talking enough for both of us  
When will you see it's not so easy for me  
You careless and whispered  
Insulting and bruising  
And I thought that you said  
Things were improving  
These laces are untied  
But my feet are walking away  
(I fall from your eyes. Your eyes I trusted. You said  
forever)  
I never thought you could say these words  
Is this really happening  
(don't say that we can still be friends)  
Erase my name from this page  
How can you take all these days  
(what is inside me, what have I done)  
And throw them away,  
(is this the only way that you will notice me)  
As I sit here waiting for you  
(dead words for closed ears, all this is sung for you)  
I stay up nights  
(if you are still pretending this is what's right)  
Until stars leave the sky  
(why can you look at me can you only see)  
Knowing what my dreams can take away  
(sides, your side, can take away)  
Walk away from me

This night is done
