Subjective sensations express the transient  
Relationship between the secure  
Foundations of convention  
And the non-visual patterns  
Unavailable to the senses  
The antagonistic dependency  
Defines the perceptive  
Limitations extending from  
The absolute threshold  
Which is the recurrent  
Dominance of the basic urges  
The objective perception of  
The differences  
Depends on the essence  
Which advocates deception  
The incoherent perception  
Of the differences  
Depends on the synopsis which  
Advocates deception  
The consciousness of the  
Continuity of existence  
Consolingly established the  
Belief that it's relevance  
Is unquestioned it's relevance  
Is ever unquestioned  
This biomechanical source  
Accomplished the  
Omnipresent illusion  
The consciousness of the  
Continuity of existence  
Consolingly established  
The belief that it's  
Relevance is unquestioned  
It's relevance is ever  
Unquestioned
