"Monolith"

The lucidity prior to the manifestation of being,
existence and nothingness
The onset of incoherent thoughts illuminates the
journey towards emptiness

The madness in the sanity and the sanity in the
madness

Blinding darkness-for those who follow ignorance
Deafening darkness-for those who follow knowledge
Whoever knows the unity overcomes death through
ignorance
And obtains immortality through knowledge

Move through the spheres, where nothing can be
divided
Where one is both one and two, a complete withdrawal

What sorrow can there be for he who beholds and
enters the manifested oneness?

Blinding darkness-for those who follow non becoming
Deafening darkness-for those who follow becoming
Whoever knows the unity overcomes death through
destruction
And obtains immortality through becoming

The madness in the sanity and the sanity in the
madness
The ultimate overcoming-the overcoming of man
