I met you on a rollercoaster  
Drive by shooting  
In a big black roadster  
- it felt so good  
We danced in clubs  
In ballroom gowns  
Lined them up and all fell down  
- it felt so good  
We played our cards for the promised land  
Walked on air and you took my hand  
- it felt so good  
It met you where our worlds collide  
No-one could touch us side by side  
- it felt so good

Now you see it, now you don't  
Maybe get it, maybe you're wrong, maybe you're right  
Now you see it, now you don't  
How could you lose it

When you shine so bright, when you feel so right?

I loved you with a 45  
A bullet jig at a roadside jive  
- it felt so good  
We chased a demon through the night  
And laced our dreams with neon lights  
- it felt so good  
We lost our heads in a winning streak  
Touched the sun and felt the heat  
- it felt so good  
I loved you a 45, a cadillac  
And we got away alive  
- it felt so good

Good won't last

Now you see it, now you don't... etc  
When you shine so bright, when you feel so right?

What did you feel in your drunken haze  
Did you feel better, than your better days

- when you shine so bright?  
How did you feel on your higher plain?  
How did you feel and would you do it again  
- when you shine so right?

I met you on a rollercoaster  
Drive by shooting  
In a big black roadster  
- it felt so good  
We danced in clubs  
In ballroom gowns  
Lined them up and all fell down  
- it felt so good  
We played our cards for the promised land  
Walked on air and you took my hand  
- it felt so good  
I lost you to a dollar deal  
I didn't know if it was real  
- it felt so good  
Good won't last

Now you see it, now you don't... etc  
When you shine so bright, when you feel so right?
