Bubble burst, wave break  
You got us wrong, make no mistake  
Lost treasures, classic brief  
They let us out it's no relief  
Come on chief let me off  
The last mohicans camped it up  
And all that's left said in jest  
Displayed upon a perfect chest

Where have you been sunny jim?  
Where have you been all this time?  
Drinking the last of the summer wine  
On the run in the sun  
High on the rocks  
West of the cox

Wake up quick, no one sleeps  
When we're awake we go for weeks  
Our eyes are red but we feel great  
We went to sea aboard a beer crate  
And have you heard the classic tune

And read the book and seen the film  
And is this boy our local loon  
Have you heard him play the egg and spoon

[chorus]

Where have you been?

Up and down yo yo saito  
Always ready so polite-o  
We had it all in every port  
All so susses a last resort  
We'll drift along for a while  
'cause we've got bite and country style  
And we've got this big decision to make  
A country mile or a u.s. pancake

[chorus]
