...come and get off you're ass!
Hi it's me, christ
This one goes out to all of you
Drawing board suckers, german hip hop wimps
And company bastards
Of course my little island not included
I just want to remind you
Your days are gone
My time has come
You're history
I'm the future
Because
I'll rise
I'll rise
You sucker you will tumble down
And IÂ´ll rise to the skies
Hi it's me again
Are you bleeding now ? I'm sorry
I never wanted to hurt you
I just wanted to be as goddamn cool as you
Womanizing entertaining eloquent handsome
Living in grand style just dissing the whole planet
Over this planet
I rise
I rise
