Thank god I finally know
This ship is out of control
Thank god I have the balls to leave it to the sea
Got my lifeboat well prepared
I'm gonna breathe virgin air
I'm gonna smell the sand of a new island

It's already said, already done
I know I owe you nothing
Everything is said and done
I just can't stay here
It's already said, already done
I know I owe you nothing
Everything is said and done
I don't belong here

I got the wind at my back
The sun upon my face
The wings of my believes carrying me to the stars
I wanna spend my days
In a place without any memories
Let the wounds of experience
Can find the chance to heal

It's already said, already done
I know I owe you nothing
Everything is said and done
I just can't stay here
It's already said, already done
I know I owe you nothing
Everything is said and done
I don't belong here

And I won't need you tomorrow
Like you don't care today
We dwell in constant sorrow
Sorrow is the name of your game
I don't belong here
God, I don't belong here

It's already said, already done
I know I owe you nothing

Everything is said and done
I just can't stay here
It's already said, already done
I know I owe you nothing
Everything is said and done
I don't belong here
