Try and talk to you
It's impossible to do
Ur taking my breath away
I hear your voice
You speak my name

It feels as if
The sky isn't the limit
It feels like
I'm not afraid to fly
Every since I met u
Everything has been impossible to do
Except love you

Try and focus on
Until you came along
You make my heart burst
I feel your hand
You touch my face

It feels as if
The sky isn't the limit
It feels like
I'm not afraid to fly
Every since I met u
Everything has been impossible to do
Except love you

I wanna feel a true embrace
I wanna see your lite up face
In every room even place
I wanna feel your lips on my cheek
And move striaght to my lips
I want you 2 be a true loves kiss
Is this impossible?
Or does this all exsist?

It feels as if
The sky isn't the limit
It feels like
I'm not afraid to fly

Every since I met u
Everything has been impossible to do
Except love you

No the sky aint the limit
It can go so far
I'm not afraid to fly
I can touch a star
Everything is now possible to do
Because you said " I love you "
