Emil Bulls
"Infecting The Program"

You'll never dig that
I'm addicted to that
You're sealed off in your own selfish world
Don't tread on my dream
This is all I got
My vocation
It thrills fills and kills

Won't you stop infecting the the program
Can't you see that I'm addicted to it
Stop your false flag operations
Don't you get that I can't live without it

You'll never get me under your thumb

You'll never infect me with the virus that you spread
I'm going to annihilate
Everything we've shared
I'll teach you a lesson
Onethat you'll never forget
This is passion
It thrills fills and kills

Won't you stop infecting the the program
Can't you see that I'm addicted to it
Stop your false flag operations
Don't you get that I can't live without it

Come on! Check this out!

Won't you stop infecting the the program
Can't you see that I'm addicted to it
Stop your false flag operations
Don't you get that I can't live without it

Won't you stop infecting the the program
Can't you see that I'm addicted to it
Stop your false flag operations
Don't you get that I can't live without it
