Walking around with you
Makes my knees so weak
It's harder to breathe
With every word that you speak
I swear I see an angel
Right in front of my eyes

I can't help that feeling
I get when I'm with you
I can't hear my heart beating
When you walk in the room
It's as if time stops
To give me a chance tonight
With you

When I'm not with you anymore
My world isn't the same
The sun goes away and it starts to pour
And you are to blame
There was an angel right here
But it had to disappear

I can't help that feeling
I get when I'm with you
I can't hear my heart beating
When you walk in the room
It's as if time stops
To give me a chance tonight
With you

Well I think I must have died
Because I thought angel couldn't go so low
But I've never felt so alive
Cupid shot through my heart with an arrow and bow

I can't help that feeling
I get when I'm with you
I can't hear my heart beating
When you walk in the room
It's as if time stops
To give me a chance tonight

With you

Walking around with you
Makes my knees so weak
It's harder to breathe
With every word that you speak
I swear I see an angel
Right in front of my eyes
