"Just A Crush"

Visit "[Just A Crush](#)" on MotoLyrics.com

When I talk to you
I feel like I belong
When I see your smile
It sticks in my head like a song
You're perfect for me
I'm glad we are we

Never thought about this
At first just a wish
You and me
Oh we are made to be
Is this just a crush?
It's gotta be love

I always think of you
See your face everywhere I look
Your eyes are like a dream
In a fairytale book
Never wanna say "Good-bye"
With you I can fly

Never thought about this
At first just a wish
You and me
Oh we are made to be
Is this just a crush?
It's gotta be love

Your the one for me
I'm glad that's what we see
We're really in love
It's not just some silly crush

Never thought about this
At first just a wish
You and me
Oh we are made to be
Is this just a crush?
Oh this can't be a crush
We've fallen in love
