"Summer Love"

Visit "[Summer Love](#)" on MotoLyrics.com

I hope you do realize
Summer love has an end
I mean we need to face it
But there's our trouble
You want us to last forever

CHORUS:

I hope when you think about rain
You think of when we danced in it
I hope when you think of guitars
You think of the music in our hearts
And when your in your pick-up truck
You look beside you and see
The empty passenger seat

Sure I did call you every night
But that was summer
Now it's time to give in
We are just summer lovers
We would never last forever

(REPEAT CHORUS!)

We had our time
Now it's all over
Summer love can't go over summer
Where would we go?
There's no place to meet
Now get used to an empty
Passenger seat

(REPEAT CHORUS!)

I hope that from now on
When you hear my favorite song
The on by Taylor Swift
That you siad goes on and on
I hope you don't cry
But simply
Remember the good times
