Give your heart a kind of wing
Let it fly
For my love is entering
Give it a try

With your arms around my neck
Hold me to
Let this night surround our love
Me and you

That's what I'm asking for
No-one could ask for more
That's what I want you to
You've got to give me your love

Love is like a growing grass
Loves the rain
When it's real don't let it pass
Has all to gain

That's what I'm asking for
No-one could ask for more
Yeah, that's what I want you to
You've got to give me your love

That's what I'm asking for
No-one could ask for more
That's what I want you to
You've got to give me your love

That's what I'm asking for
No-one could ask for more
That's what I want you to
You've got to give me your love
