Thinnnnnnnk of me  
Very scientifically  
Share your thoughts with me  
Send them over land and sea

They seep through walls  
Echo down abandoned halls  
They cling to skin  
And penetrate the bones within

Let me see your joy and fear  
Be you far away, so near

How can it be, we never seem to see  
What we have until it's gone

Why is it so, we never know  
What we have until it's gone

The more i try  
All the faster you'll slip by  
There things are never free  
But then again, they shouldn't be

So vaaaaaporize  
Slide to me like liquid ice  
I loooooong to be  
The object of your school, see me

I can see into your eyes  
The deepest blue of winter skies

Why is it so, we never know  
What we have until it's gone

Until we burn, we'll never learn  
What we have until it's gone

Ssssscientificl-cl-cl-cl-cl

Ssssscientificl-cl-cl-cl-cl

I can see into your eyes  
The deepest blue of winter skies!

Why is it so, we never know  
What we have until it's gone

Until we burn, we never learn  
What we have until it's gone
