We've been up  
And we've been down  
But this time something is telling me  
It's different somehow  
Like a bell  
Ringing in my mind  
Telling me to wake up  
To what you want  
We gonna crash this time

And even if I could survive  
What's the point without you by my side

[Chorus]  
I can't shake the feeling now  
I got to turn my life around  
Cause I can feel it's going down  
It's now or never

I don't want to think about  
All the things that never were  
And I don't wanna lose you now  
So it's now or never

So let me try to make this better now  
To fill the space between us  
With those word that I never ever said out loud  
Tell me how and I'll be something new  
Make my heart a blank page  
That is useless to anyone but you

Cause I can never live without

the only thing I ever cared about

[Chorus]  
I can't shake the feeling now  
I got to turn my life around  
Cause I can feel it's going down  
It's now or never

I don't want to think about

All the things that never were  
And I don't wanna lose you now  
So it's now or never

A part of me still believes  
when you say you gonna sick around  
A part of me still believes  
we can find away to work it out  
I got to know that we tried everything we could try  
before we said goodbye forever

[Chorus]  
I can't shake the feeling now  
I got to turn my life around  
Cause I can feel it's going down  
It's now or never

I don't want to think about  
All the things that never were  
And I don't wanna lose you now  
So it's now or never
