I've been floating around  
Not looking down  
Are you trying to catch me?

So I'm dreaming alone  
Starving my soul  
Will you come here to save me?

Will you get there and finally find me?  
Baby, give me all of you

[Chorus]  
I am weightless  
There is nothing I can do  
Hold on, I'm weightless  
Don't you let me drift from you

I've been fading away  
Acting ok  
I've been no-one looking for someone  
So in dark of tonight  
Bring me to life  
Can you see me? baby, hear me

Will you get there and finally find me?  
Baby, give me all of you

[Chorus]  
I am weightless  
There is nothing I can do  
Hold on, I'm weightless  
Don't you let me drift from you

I'm not stronger without you  
I'm not stronger without you  
I'm not stronger without you  
I'm not stronger without you

[Chorus]
