Let's stay awake and listen to the dark  
Before the birds, before they all wake up  
It's the ending of a play and soon begins another  
Hear the leaves applaud the wind

See the sun come rising and white wings start to fly  
Like strings of pearls in the fiery sky  
I don't want to close my eyes  
Don't want to leave the stage now  
As the leaves applaud our stay

Lend me your wings and teach me how to fly  
Show me when it rains, the place you go to hide  
And the curtains draw again and bow, another day  
ends  
The leaves applaud the wind
