

Emiliana Torrini "Fireheads"

Visit "[Fireheads](#)" on MotoLyrics.com

Somebody's got a long way to go
You're not sitting by the phone no more
You're gonna throw it away, crash it on a rock
Yeah, so you can live your life
Are we going crazy?

It's not fair to say we wasted time
In my view we just used it all up
It's not fair to say we wasted time
In my view we just used it all up
What hurts you hurts me too

I find it hard to make right
I know I've been a pain lately
That I failed in every test, oh, I did wrong

Oh man, what are we seeing here?
Life's changed, oh
We share a similar firehead
So there's nowhere to go

Laws change and things are braved
Somewhere we got lost and can't be seen
There's a hard wind blowing down our house
Once that's gone it can't be found
I thought you'll keep me warm
But I was shown I was wrong

Oh man, what are we seeing here?
This changed, oh
We share a similar firehead, oh
There's nowhere to go

An' oh man, what are we seeing here?
Life's changed, oh
We share the same firehead, oh
There's nowhere to go
