Take the pill that makes you weaker  
Take the pill that makes you sick  
Take the pill or you'll be sorry  
Take this bloody pill and make it quick

Take the pill that kills your sex drive  
Take the pill that makes you cry  
Take the pill that burns your insides  
Take the pill that makes you want to die

Just be careful what you say...  
Today could be your day

You no longer rule your body  
You no longer own those rights  
You will wake up when we say so  
You will sleep when we shut out the lights

Enjoy your stay...  
Cause you can't run away...

Get back in line  
Get back in line  
Get back in line

Get back in line  
Get back in line  
Get back in line  
You'll be just... fine

Take the pill that makes you quiet  
Take the pill that makes you blind  
Take the pill that wipes your memory  
Take the pill that's fucking with your mind

That's all you have to lose  
Ha... that's funny...

Best that you're not procreating  
Best that you don't multiply  
Better still, let's sterilize you  
Take this pill, the doctor's standing by

Lift up your skirt...  
And yes, it's going to hurt...

Get back in line  
Get back in line  
Get back in line

Get back in line  
Get back in line  
Get back in line  
You'll be just...fine...

Don't you wanna be sedated?  
Don't you want to ease this pain?  
If these pills are not effective then we will electroshock  
your brain

We are not happy with your progress  
You're not yet considered sane  
If these pills are not effective, we'll electroshock your  
brain

Don't even think of spitting out  
We know your tricks  
We're on to you  
We will check underneath your tongue  
We know exactly what you're doing

Your accusations are a joke  
Your credibility is shot  
Just keep your eyes down and your mouth shut  
That's the only choice you've got

So you're a doctor and I am just a crazy little girl  
(Who would you believe?)  
Well he's a doctor and you are just a crazy FUCKING  
BITCH  
(Who would you believe?)

We filled your prescription  
You'll never run out again  
We filled your prescription  
These drugs are your only friend

We filled your prescription  
You'll never run out again  
We filled your prescription  
These drugs are your only friend

Now take the pill!

Take the pill! (x15)

Take it!

Take it! (x4X)

Swallow!

Swallow! (x4)
