I see the world through brand new eyes
I see the light reflecting bright
From the faces and the things I see
Oh, now I see

And it's up to me to see it all through
But it's easy with you
Na na na...

And it's up to me to see it all through
But it's easy with you

I was crushed by the feeling and was sad
The water rushed into my breathing and I drowned
I fell asleep from below the city ground
Down to the bottom of the sea, I drifted down

But I could hear that you were calling from the moon
I didn't expect that you'd be calling me so soon
But then again, there's no reason to ask why
So I found my might and I jumped into the sky

I...

I...

And it's up to me to see it all through
But it's easy with you
Na na na...

I see the world through brand new eyes
I see the world through brand new eyes
I see the world through brand new eyes
Now I see
