Our world is cut to pieces
We are endangered species
All this fighting, this warring, this constant friction
We fight for so called order
We send our sons and daughters
All this bloodshed, this hatred, this fucking slaughter

But there must be a way
We can live without hate
We don't have to fight for everything we've got
Is this the price you want to pay

They feed us propaganda
Disguise the real agenda
It's all about money, the arms deals, the oil you greed
for
It's time for all religions
To live without division
It's our choice, hear out voice, scream until they listen

But there must be a way
We can live without hate
We don't have to fight for everything we've got
Is this the price you want to pay
Don't let the system tear us apart
Open your eyes and you'll find your heart
Be part of the cure and not the disease
'cause how can you bleed if you ain't got a heart

But there must be a way
We can live without hate
We don't have to fight for everything we've got
Is this the price you want to pay

Lay down your guns (lay down your lives)
Lay down your bombs (lay down your pride)
Lay down your arms (lay down for your country)
Lay down your guns (lay down and die)

But there must be a way
We can live without hate
We don't have to fight for everything we've got

Is this the price you want to pay
Don't let religions tear us apart
Open your eyes and you'll find your heart
Be part of the cure and not the disease
'cause how can you bleed if you ain't got a heart
