I've been to hell you know that I've seen the show  
Been down that road and I've been driving on the go

And you all know that I'm a drug fiend  
And you all know that I'm a drug fiend

Don't care about the pace I'm keeping I don't care to  
think  
All I care about is where I'm gonna score my next free  
drink

And you all know that I'm a drug fiend  
And you all know that I'm a drug fiend

Eyes open wide against their will  
I'm a drug induced killing machine  
Drug fiend  
Pumped full till my stomachs bleeding  
I can't sleep to dream  
Drug fiend  
Don't like you shitty band no I dont dig that shit  
I come for pills so fuck your scene man  
My shit don't stink  
Eyes open wide against their will  
I'm a drug induced killing machine  
Drug fiend  
Pumped full till my stomach's bleeding  
I can't sleep to dream  
Drug fiend
