An all-American boy  
Voted likely to succeed  
Started hearing voices  
So he made people bleed

He had to kill 13  
Stopping earthquakes  
Was his dream  
by 1972  
Herb became a normal dude  
But he kept hearing voices  
He was in a violent mood  
He had to kill 13  
Stopping earthquakes was his dream

Voices told Herb  
13 must be killed  
He did his best  
That the orders were fulfilled  
Splattered with their blood  
More fun in Santa Cruz.
