Is it true you used to be my friend?
What did I do? Why didn't I get in to your cool crew?
You got a modern loft and a new tattoo of your own
name
I got a single room overlooking the highway and a
microwave for you

Heartbroken, I've been for you

Is it true, you and the other girls, you all stood in a
circle?
Sophie left me in a bar at the bottom of the world
All the followers put the word out around the room
I'm on my way, I'll always remember you to stay on the
move

It's true
Heartbroken, I've been for you
It's true, true
Heartbroken, I've been for you

Bottom of the world
You left me in a bar at the bottom of the world
