Whatever it is spit it into a bottle and sell it to me
I'm looking to buy freedom from my sobriety
Just like Huey Lewis

I need a new drug, I need a new drink
I need a new drug that does what it should

So take me to the bank
Take me to the bar
Can you take me to the hot spot?
This is what we worked so hard to afford but

Take me to the bank
Can you take me to the bar?
Can you take me to the hot spot?
This is what we worked so hard to afford but
How I wanna hide

The next time you visit me here
How about coming out to my place
We can sit on the floor and play my brother's records
We can sit on the grownup bed

Couple with the coin
Lighting up to join the coping crowd
My big brother said to stay unsatisfied
Never work a day to pay off your desire

Couple with the coin
Lighting up to join the coping crowd
