All in the spring  
As the lovers and birds would sing  
I'd be walkin' alone with nowhere to go  
Quietly doin' my thing

Then came the sight  
Of an energy shinin' so bright  
As you closely walked by your eyes met with mine  
Makin' me feel so alive

Oh, I have been waiting for all of this time  
You, finally found you, my love has arrived  
Once there was me, now there's U and I

We spent that day  
And we laughed and we smiled and we played  
And with everything right, not a problem in sight  
I pray that this moment would stay

Then came the night  
And we stared at the stars in the sky  
And as we spoke of our plans, you reached for my  
hand  
Makin' me feel so alive

And oh, I have been waiting for all of this time  
You, finally found you, my love has arrived  
Once there was me, now there's U and I

Before you came my world was empty  
(My world was empty, yeah)  
You brought the joy back to my star  
(You brought the joy back)  
And now I know that we will stay more than friendly  
(I know, I know, I know)  
'Cause I want to be with you always

Oh, I have been waiting for all of this time  
You, finally found you, my love has arrived  
Once there was me, now there's U and I

Oh, I have been waiting for all of this time

You, finally found you, my love has arrived  
Once there was me, now there's U and I
