Peace will flood your dry path of despair
Like golden raindrops fallen from heaven's air
Only sent down by our savior's beautiful love
But alone and abandoned and suffocating in
Seeking an answer to living again

Chorus

In black we'll fall and bleeding bullets will hit
Faith will be broken and torn and slit
But if we'd come back and pray and hold tight
That peace will rain down as you stand with a fight
Slower and at steady you will breathe again
And finally at ease your anxiety will end
I speak from my days this is no lie
The world will spin more steady as the days pass on by
The lord's beauty is a song of blessings
His precious grace the keys
And his voice is within us
As we pray and speak and sing

Chorus

Contained inside all of us
God is there alive
So arise his precious spirit
You never know what you hold deep inside

Peace will flood your dry path of despair
Like golden raindrops fallen from heaven's air

Chorus
