You're all I wanted all I love  
You're my dark light  
My angel all I'm dreaming of  
You're my delight  
You are the half making me complete  
You're all I need

I never thought this night will end  
I thought my eyes try to pretend  
Now I know dreams come true  
I know it's true since I found you

You're all I wanted all I love  
You're my dark light  
My angel all I'm dreaming of  
You're my delight  
You are the half making me complete  
You're all I need

You are desire I once cursed  
The dream I yearned for with bad thirst  
Before you came my heart was dead  
I loved you long before I met you

You're all I wanted all I love  
You're my dark light  
My angel all I'm dreaming of  
You're my delight  
You are the half making me complete  
You're all I need

You're my dark light  
You're all I need  
You're my delight  
You're all I need
