i can hear your voice can you hear my voice  
i can feel your touch can you feel my touch  
hear the dark twin in my fear i'm your dark twin, i'm  
your fear  
taste the sweet salt in my tear i'm the sweet salt in your  
tear  
you're my lover inside i'm your lover inside  
my priest your priest  
the doubt in believe  
my beast your beast

i believe there is more  
more than eyes can see and more  
than words can ever tell me  
i can feel that there is more  
more than we ever asked for  
than someone could ever tell us

tonight i thought about suicide then the darkness  
beared the light  
so many questions asked in vain, trust the night, she  
takes your pain

tonight i see the light  
i came to say i go now  
i came to say goodbye  
to the darkness false gods placed in my heart  
tonight i see the light  
i came to say i know now  
i came to say i can  
can find the answer deep in my heart  
i can feel there is more  
we are standing on a shore  
the waves are waiting for us  
silver flashes dance in the moonlight  
tell the secrets of the night  
can you see the light shining deep inside

tonight i searched in every land, searched in hell and  
paradise  
i see the traces in the sand, tears have purified my  
eyes

can you hear my voice  
can you feel my touch  
i'm your dark twin, i'm your fear  
sweet salt that burns in your tear  
i believe there is more  
more than eyes can see and more than words tell me  
i believe in the light, born by the darkness, it shines  
inside  
can you hear my voice  
can you feel my touch
