Visit "[The Ripper](#)" on motolyrics.com

Its half past midnight
Gutters laced with
The blood of disfigured whores
Kneel at the gates
Your Casket awaits
He follows you there
You await your Fate
He carves his name
Right across your fucking throat

THE RIPPER IS NEAR
Verse

Now surrender to his wrath
fear the ripper

Verse

FUCK

Opium runs through my veins
I wanted to save her
I lay there, eyes dilated black
Will this nightmare end

FEAR THE RIPPER
