[Shabaam Shadeeq]

Of course I rap till I'm hoarse
Add the sauce to them dry turkey mc's
Say what you like, I toss
In theory when you hear me
Like the guts of the Dutch
Snap caught you in the act like Vivitar
AF 2-5-5 auto-focus clear vision
Precision mics for people of all types
Call the cavalry
My brutality switch the pitch gradually
Aqua turntable knocka
Fresh like binocca
Jot the thoughts in my chronicles
Remarkable styles Shadeeq taxed it
Make an exit to spark mine
Nuclear physics with cannibals and phat rhymes
They know the time like it's sundown at explow

[Eminem]

Went to bible class with a gun
Blasted a nun
Fuck hell, Satan sent my ass to the sun
I wasn't born I was hatched
And dumped in the trash
With a note attached saying
Someone please whip this brat's ass
I never gave a rat's ass or a flying fuck
Driving drunk in a fire truck with the siren stuck
Slammin the brakes
Skiddin out cuz the tires suck
I went to pull you off my dick
And got the pliers stuck
You better run cuz I'm probably the only one
Crazy enough to shoot your ass with a knife
And stab you with a gun
I like fire, you might see me start it
I'm slightly retarded
I miss my sanity since the night we departed

[Skam]
