This time for the relapse  
This room it feels lonely  
Guess i was the only  
The only damm fool to get caught in the trap  
Feels like a slap  
Disrespected the slim shady code  
Back in my real mode  
Nothing will stop me from the recovery  
My life is a discovery  
When they left me out do dry  
But what the fuck they go and cry  
And now im back in the waiting room  
I nearly fuckin fell to my doom  
Now you are the one that will pay  
But my life might not have another day

(chorus)

So i sit in this room  
With these words in my head  
Im dying and i will never come back  
Im closing my eyes  
But they gonna make me walk again  
And i can be the slim shady man  
God just wont let me in  
And i just wait there under these closed doors  
Under these fuckin closed doors

Seriously  
What the hell were you thinking  
You made me be something im not  
But now im coming in  
And i will break your damm door down  
And then little pig ill slice your throat  
You will bow down to my mercy when i take over  
This game feels harder  
But i lever up and get stronger  
You can never feel the way i feel  
Cause im feeling like crap

Not popular and stupid and the jerk in the trash  
Yeah that was the old me  
But honestly it wasn't the real me  
The real me was inside me

But you captured it and left it on your balcony  
You gonna get what you deserved all these years

(chorus)

So i sit in this room  
With these words in my head  
Im dying and i will never come back  
Im closing my eyes  
But they gonna make me walk again  
And i can be the slim shady man  
God just wont let me in  
And i just wait there under these closed doors  
Under these fuckin closed doors

Why did i get myself into the situation  
Im a jersey shore im a total party  
Part pretty, part perfect im a complete package  
I get phone calls from guys in every nation  
My secret was some fairy dust  
Got it from tinker bell  
Traded it for a golden globe  
Im the bomb diggity  
Yep the only everything  
Yes yes yes i am  
You cant catch me im the greatest deal.

(chorus)
