[Intro:]

Damn!

Why don't you ever go away?

Huuuh?

[Chorus A:]

We need to stop this shit

And realize what you spit

It's me and this garbage

Just shake some ass and tits

Don't act like your sick

And I'm gonna respect you

And leave Hip-Hop alone.

Go! - Promote wack rap!

[Verse 1:]

When I turn on the radio - I get nauseous

Annoy your commercial garbage,

And make sure I turn it off quick

You make me so sick, it's pointless to even diss.

But I do it for the lute and mp3 page his, I try to teach kids

But their steady rocking, eyes boping heads to Ludacris.

Swearing that he's nice! - Come on he sounds like the newest sensation

To get the party dancing - and fuckin' asses shakin'.

Making hits faking quick [?] like music

I'll slap you with your own rhyme - oh, there's your greatest hit!

Lazy kids with dope beats, and alot of blabbing

In reality you get beat like Eric [?] battling

But it's not your fault completely!

I blame promoters to, hyping up your CD when they got 4 interludes!

Companes lute you - cause your making them lute

But when your one hit wares out - they'll drop you for good, your replaceable

[Chorus A]

[Verse 2:]

Pretend you like Hip-Hop! - That's a no-no!

Show your [?] donate a Volvo

Oh, no! - That be to much to ask!

Actin like Alaskins with that rented ice you flash.

I'll come down to your street carrying burners

Now your block is hot! Hot like a heat contained
thermis.

Your nerves now - I see your eyes twitching, doing [?]
to females

Coming out sounding like bitches retards spiting
disses a bunch of carbincopyies.

You must of failed the road test, learning how to write
beats

My street! - Only bumps but it's unreleased.

Fuck self reclaimed kings of Hip-Hop! - There all weak!

My ryhme shines brighter then any ice you rock

Ryhming in the hook 9 times [?]

Lame ducks running on stage with make-up!

It's crazy to us! - Real MC's take and get big cuts! - Your
finshed...

[Chorus A: x2]

[Chorus B:]

Stop this shit!

And relize what you spit!

It's me and this garbage

Just shake some ass and tits!

Don't act like your sick

You'll be out of fasion quick

Leave Hip-Hop alone

You annoying piece of shit!
