[Intro]

Oh no what's happening to my brain  
I can't believe this is happening again

[Verse 1]

Lava out my lips I flips  
Wake up think I have a cramp  
I'm trying to shove the lava lamp up my father's ass  
I think I'm out of gas, man  
I think I need another mask  
I'd ask my mother but I think she's laughing at the plants  
A half a gram of graham crackers and some Van de Kamp's  
I think I'll eat some Ambiens like they're candied yams  
Cut a couple cadavers up and have a little snack  
Abraf-ckingcadabra motherf-cker look who's back  
Just like a pendulum, Satan's pentagram swings  
I accidentally dented it and bent the damn thing  
Shit I think I might have did it when I was dancing  
While I was chopping one of my legs off and pulled a hamstring  
First I Re-up, then I Relapse  
Go to rehab then I Detox after I see Doc  
And I'll be back with the sequel, repeat the cycle  
Cause I react like the She-Hulk when I see Nyquil

[Hook]

Oh no  
Here we go again  
When it's going to end  
Where did it begin  
Maybe way back when

[Verse 2]

Into the well, baby Jessica fell  
She may have wetted herself  
Quit playing, get her some help  
Mary Kay Letourneau sending me letters from jail  
Every day in journals saying how  
She wanted to smother me in lettuce and mayo

I'm the medicine man  
My medical marijuana was prescribed by a doctor  
Shove a typewriter up her  
Perez Hilton's ass, shit, almost forgot that  
He's always shoving something up his ass so why not  
that?  
And f-ck it while I'm venting let's shove a vending  
machine  
Up his rear end when he's bending over pretending  
that he  
Didn't say anything that would be offending to me  
Stick his head in a blender, begin blending in G  
Where should I put the pink sissy with the fluffy hair?  
Put him under the stairs? People are already under  
there  
Hmm, I wonder where. Wait, I think the cupboard's bare  
Stuff him up in the tupperware and shove him up in  
there

[Hook]

[Verse 3]

Vicod\* like a nitrogen hydrogen vitamin  
I bite into five and then I get high as a kite again  
I like it when I get in my zone on the mic again  
Who am I kidding? I couldn't quit this shit if my life  
depends  
I relapsed twice after I came outta Brighton then  
Yeah, rehab's nice, I had my name up in lights again  
You see that's why I can't decipher what life I'm in  
I might pull a knife on your wife and slice her and dice  
her then  
It sounds so enticing, isn't it nice when I'm hype again?  
I'm nice when I'm like this, no time to write just type it in  
If I could get my pen to slow down, what'd I write just  
then?  
Man I'm about to hyperventilate, I just have hyper-  
tension  
I have the type of mental state you couldn't  
comprehend  
Unusually stupid of you for you to think I'm your friend  
I usually do what I do and suffer no consequence  
I offer no mercy, the controversy is once again
