I dont really want to battle you because this is a rappin
feast
battlin me youll get fucked worst than a lil boy in the
catholic church
getting a private service with a priest
A true lyrical magican
a full arsenal of rhymes wit plenty of ammunion
so if u think u got the balls to battle me then step to me
like a man
but u cant because u are transvestite dressin up like a
wo-man
you wish you were me you the guy I was talking about
when i said stan
you cant win against me and my lable we the tightest
like Meth and redman
Thats like Oprah marryin steadman
before that happens we both rather be some deadman
you the guy with a click but no one ever cared
I see you on the streets and unlike bonecrusher you
always scared
so you how you gonna scare me you just cannot
you be the one scared when d-12 approach your block
with 12 glocks ahhh you shot
Made you look so im about to depart
Im taking you with me so you gone be missing in action
like Elizabeth Smart
this is not funny i dont take this shit as a Joke
this is serious bet against me in any battle you be like
Mc hammer dead broke
you listening to that motown sound straight out of the D
you to lil so stop fucking around with me
