Yeah, yeah (yeah)
Follow me (follow me)
Come with me to the dark side of the force (force)
No man would boldly go to this place
The devil only knows of this world
So dark and oh so cold
It's all so cold, all so cold
Oh

Soon as my flow starts
I compose art like the ghost of Mozart
Even though they all say that they're real
I know that most aren't
Boy you think your clever don't ya
Girl you think your so smart
Come with me to another side of the world so cold and
so dark

A world so dark
A world so cold
A world where only some will go (stay wide awake)
But not return
When will they learn?
Where do they go?
God only knows
Stay wide awake

Fe Fi Fo Fum
I think I smell the scent of a placenta
I enter central park, it's dark, it's winter in December
I see my target with my car, and park and approach her
tender
Young girl by the name of Brenda and I pretend to
befriend her
Sit down beside her like a spider, hi there girl you
mighta
Heard of me before, see where you're the kinda girl
that I'da
Assault and rape and figure why not try to make your
pussy wider
Fuck you with an umbrella then open it up while that
shits inside ya

I'm the kinda guy that's mild, but I might flip and get a
little bit wilder
Impregnate a lesbian, yeah and now lets see her have
triplets and I'll eh
Incinerate them babies soon as they're out her with
formalde
Hide in cyanide, girl you can tryin hide, you can try to
scream louder
No need for no gun powder, that only takes all the fun
outta
Murdering, I'd rather go vin vin, and now you see just
how the
Fuck I do, just what I do, when I cut right through your
scalp
Ahh shit wait a minute, I mean skull, my knife seems
dull
Pull another one out (ooh)

Soon as my flow starts
I compose art like the ghost of Mozart
Even though they all say that they're real
I know that most aren't
Boy you think your clever don't ya
Girl you think your so smart
Come with me to another side of the world so cold and
so dark

A world so dark
A world so cold
A world where only some will go (stay wide awake)
But not return
When will they learn?
Where do they go?
God only knows
Stay wide awake

So dark and so cold
My friends don't know this other side of me
There's a monster inside of me
It's quite ugly and it frigh-tens me
But they can't see what I can see
There's a vacancy in my tummy
It's making me play hide and seek
Like Jason, I'm so hungry
She's naked, see no privacy
But I can see she wants me
So patient see, I try to be, but gee, why does she taunt
me?
Close the drapes and she goes right to sleep, and I
creep right through the front seat
So blatantly but silently cause I know that she's sound

asleep

Who's waking me so violently, and why's he on top of me?
He's raping me, she tries to scream, somebody please get him off me
He's taping me, he's biting me, he's laughing like it's funny
She's scraping me, she's fighting me, she's scratching like some dumb freak
Escaping me, no die she see, I might just be Ted Bundy
Or Satan gee, what a sight to see, I'm dancing in my red panties
I'm crazy but it's alright with me, man life can be so empty
Stay away from me cause I'm dancing to quite a different drum beat

Soon as my flow starts
I compose art like the ghost of Mozart
Even though they all say that they're real
I know that most aren't
Boy you think your clever don't ya
Girl you think your so smart
Come with me to another side of the world so cold and so dark

A world so dark
A world so cold
A world where only some will go (stay wide awake)
But not return
When will they learn?
Where do they go?
God only knows
Stay wide awake

Better try to stay wide awake
Or you might end up found dead by the lake
Soon as you lay me down to sleep
Bitches soul, I'm a try to take
Pray for light today right away
Why do they try to fight today
I must make them pay twice as much
Might as well put the knife away
Now I use power tools
How about now while you in the shower
Scour you for six hours till outage of power outlets
How did you figure out I was down in your basement now?
You - must of just heard the sound of my stomach growling from down there

Holler there's no one fowler
Bound to the tub they found ya
Face down in the tub I drowned you with piles of
downers around you
Such nostalgia and powers
Such prowess look how you cowered
Jumped out on you now like I was a Jawa from fucking
Star Wars
Jaba the hut, be de ba ba, be de ba ba, it's time to die
die
Ought to not even bother to scream, It don't even
matter
Amazing when grazing skin with these razorblades he
waves at ya
Not your everyday Damien, bathe me in holy water
Nothing like son of Sam, so please understand there's
no gun in hand
Where's the thrill in the hunt, there's no fun in that,
here I come with axe
It's fun to act like lumberjack, when I'm hacking em up
with that
What was that? Dial 9-1-1, someone's coming in from
the back

Soon as my flow starts
I compose art like the ghost of Mozart
Even though they all say that they're real
I know that most aren't
Boy you think your clever don't ya
Girl you think your so smart
Come with me to another side of the world so cold and
so dark

A world so dark
A world so cold
A world where only some will go (stay wide awake)
But not return
When will they learn?
Where do they go?
God only knows
Stay wide awake (Stay wide awake)
