Intro:

Baby

Can you be weird

But don't worry

The Iron Giant's back.

Chorus: Daft Punk (Beyonce)

I think he must be a bot

He must be the Iron Giant (Iron Giant)

You must be too cute but now you're gone

Somebody needs a giant bot

He needs to know he can be good

He must be the Iron Giant (Iron Giant)

No one can be really evil to him

Because the Iron Giant's back.

Rap: Eminem

The Iron Giant is free, he got white eyes

He found out to show him how he could be

He was the best, robot in town

He must really breathe with his deep voice

His mood has been excited, sad, and angry

But his perfect feeling can be found here

Forever he was in the sky, into space

He could be the robot in the junkyard

But the robot can be found, in that place

He shows his eyes with his big face

His mouth and teeth can talk in a voice

But his giant feet can walk in the ground

The Iron Giant goes on without a fight

But his eyes got closed without the light

But one robot can be saving in the night

That helps him because the Iron Giant's back.

Chorus: Daft Punk (Beyonce)

I think he must be a bot

He must be the Iron Giant (Iron Giant)

You must be too cute but now you're gone

Somebody needs a giant bot

He needs to know he can be good

He must be the Iron Giant (Iron Giant)

No one can be really evil to him
Because the Iron Giant's back.

Rap: Eminem

Those robots are at the junkyard
Where is the robot, where can he be
And he can be found in the dump
He must be the sexy robot to pump
No robot can be found in that junk
Because the Iron Giant's back (Uh huh)
He can be really good, he can save the day
Until the army can be evil, they're going to pay
He knows his white eyes, he understands
He can be beautiful inside and out
He can stop the army with his evil eyes (Uh)
He can go in the blizzard to be upset
He eats metal with his teeth by himself
He found out where the kids can be falling
He grabs his hand, saved his kids
Back to his dad, he can be friendly.

Bridge: Beyonce

When he sees you with his eyes
He can be friendly enough to save (Oh yeah, to save)
Will he save the world in his hands?

Chorus: Daft Punk (Beyonce)

I think he must be a bot
He must be the Iron Giant (Iron Giant)
You must be too cute but now you're gone
Somebody needs a giant bot
He needs to know he can be good
He must be the Iron Giant (Iron Giant)
No one can be really evil to him
Because the Iron Giant's back.

Outro: Beyonce

Iron Giant's back
Iron Giant's back
Iron Giant's back
Because the
Because the
My Iron Giant
My Iron Giant.
