Alright, lets go, step on the gas
It's time to lose this disco trash.
Cruising, moving much too fast and I can't make it on
time
Flying down the boulevard, sun is shining, feeling fine.
Catch red lights but I can't stop
Coz there's something I forgot.
My car doesn't brake
My car doesn't brake
Tonight the rock'n roll's real fast
The lights are red but we roll past.
Cruising, moving much too fast and I can't make it on
time
Flying down the boulevard, sun is shining, feeling fine.
Catch red lights but I can't stop
Coz there's something I forgot.
My car doesn't brake
My car doesn't brake
