What you see is what you get  
What you said ain't always what you meant  
Things were said and things were done  
But in the end who turned tail and run  
You were so blind and you were riding so high  
But you'll see my face alone when you cry  
The tables have turned on you  
Look inside yourself see the real you  
I just want to hurt you  
I just want to make you feel my pain  
I am dying silently  
I will lash out and make you see  
Hear your laughter and watch your leisure  
Bash your learning face to disfigure  
Coming after you with a vengeance to stop  
the resurgence of your failed devotions  
Judge yourself before you judge me  
You're no better than I am  
You will see  
A message toward your bleeding hearts  
Get out our way before our hatred starts  
The state, my state of mind is only hate  
The hate that dwells inside of me is to infuriate  
I can't begin to describe what's inside  
I hide the fatal thoughts of final suicide  
There's many things that I have to sort  
within my head  
It's all the bullshit that as a kid I was fed  
I can't tell who's real and who's fuckin fake  
I take a breath before I seal your fuckin fate  
I just want to hurt you  
I just want to make you feel my pain  
Look around you see the world decay  
Can't you see that I don't see things  
the same way that you do
