Do you remember the first time

The day you came into my life

Do you remember the first time

We danced together all night

I wanna be with you everyday

I wanna be with you night and day

I wanna be with you all my life

Chorus:

Take me in your arms

and find the love you know im feeling

take me in ur arms

steal your heart away

Just tell me what is on your mind

I know that sometihng not right

Just tell what is on your mind

You know im not one to fight

I wanna be with you everyday

I wanna be with you night and day

I wanna be with you all my life

Chorus:

Take me in your arms

and find the love you know im feeling

take me in ur arms

steal your heart away x2

Take me in your arms

I know that you love me

Take me in your arms

I know that you want me

I wanna be with you everyday

I wanna be with you night and day

I wanna be with you all my life

Chorus:

Take me in your arms

And find the love you know im feeling

Take me in your arms

Steal your heart away x2

Take me in your arms

Take me in your arms
