Headline girl
Give it away
Tell it on the mountain
Tell it on the way

Don't turn red
Fending off the gossips
Singer stole the man
Singer shot the plan

Can't cry with the light on
And the weatherman talking of sunshine

Headline girl
Something to sing
A hole the size of Venus
Caved his wedding ring

Steel town dear
The factories are waiting
For a goodnight and good-bye
Into the camera eye

Can't cry with the light on
And the weatherman talking of sunshine

It's heavier than imagined
It's heavier than expected
Heavier than heaviness
So sleep it off for another day

Headline girl
Give it away
Tell it on the mountain
Tell it on the way

Don't turn red
Sometimes these things happen
Where the singer steals the man
And the singer shoots the plan.
