Yeah-yeah  
I need a close encounter  
Baby how about a close encounter

I can feel your hands  
When you touch my skin  
Like you read my mind  
When you come to me  
I wanna let you in  
It's about that time

I'm just gonna close the door so they can't see  
Sadly what you're doin to me  
I wanna touch ya, feel ya, breath ya

I need a close encounter of the intimate kind  
So turn the lights down and get the mood right  
Cos I wanna get into you, with all my senses  
Body-talkin till we're out of this world  
Tonight I only wanna be your girl  
So baby how about a close encounter

Gonna make you "shhh"  
With my fingertips  
Come on close your eyes (close your eyes)  
Don't you say a word  
I can read your lips  
While they're kissin' mine (while they're kissin min)

I'm just gonna close the door so they can't see (they  
can't see)  
Sadly what you're doin to me (what you're doin to me,  
doin to me)  
I wanna touch ya, feel ya, breath ya

I need a close encounter of the intimate kind (oh yeah)  
So turn the lights down and get the mood right (yeah-  
yeah)  
Cos I wanna get into you, with all my senses  
(I wanna get into you, yeah yeah)  
Body-talkin till we're out of this world (body-talkin')

Tonight I only wanna be your girl  
So baby how about a close encounter

Close encounter  
(Oh-whoa how about a)  
Oh-whoa how about a  
Baby-baby, baby how about a  
Close encounter  
I wanna touch ya, feel ya, breath ya

I need a close encounter of the intimate kind  
So turn the lights down and get the mood right (yeah  
yeah)  
Cos I wanna get into you, with all my senses  
(I wanna get into you, yeah yeah)  
Body-talkin till we're out of this world (body talkin')  
Tonight I only wanna be your girl (be your girlfriend)  
So baby how about a close encounter (close encounter)

I need a close encounter of the intimate kind (yeah,  
yeah)  
So turn the lights down and get the mood right  
Cos I wanna get into you, with all my senses  
(Need to, I feel you, my senses)  
Body-talkin till we're out of this world (body talkin')  
Tonight I only wanna be your girl  
So baby how about a close encounter

Baby-baby, baby how about a  
How about a close encounter  
Baby-baby, baby how about a  
Baby-baby, baby-baby  
Baby-baby, baby how about a  
How about a close encounter  
Baby how about a close encounter
