Being with you,
Longing for something to happen,
Biding my time
Hoping to get a reaction.

Atmospheres tense,
Heavy with anticipation.
Don?t leave me here,
With only my imagination.

Free Me
Now Free Me,
Let me loose to love you, Yeah how I long to seduce
you.
Free Me
Let me loose to love you, Yeah how I long to seduce
you now.

How long can I continue to suffer in silence?
My aching heart can't bear to wait in such suspense.
So maybe it's time to tell you just how I am feeling,
It's full-on desire, I have too long been concealing.

Free Me
Now Free Me,
Let me loose to love you, Yeah how I long to seduce
you.
Free Me
Let me loose to love you, Yeah how I long to seduce
you now.

Free Me
Now Free Me,
Let me loose to love you, Yeah how I long to seduce
you.
Free Me
Let me loose to love you, Yeah how I long to seduce
you now.
