It's hard to know the reason so hard to know the truth
When it's all over

And every time I look back I just get more confused so I
replay every kiss
And every clue I might have missed
Didn't I make you happy well didn't I get inside your
heart
Didn't I make you love me, didn't I, didn't I now baby
I turn my world upside down, I turn myself inside out
but I still lost you

Didn't I
Didn't I

Why do I keep believing what am I hoping for
Why can't I let you go

I did all I could do
Why do I think there's something more
I just don't understand
How love slipped right through our hands
Didn't I make you happy well didn't I get
Inside your heart
Didn't I make you love me, didn't I, didn't I now baby
I turn my
World upside down, I turn myself inside out
But I still lost you
Didn't I

Why do I think the fault is mine
Was it me or the wrong time
Well maybe I can
Move on if I knew the reason why

I turn my world upside down, I turn myself inside out
But I still lost you

Didn't I
Didn't I
