Thought that I had been in love before,  
But something deep in my heart,  
Whispered to me there was something more,  
Now I know you were the missing part.

(Chorus)

With you, all my fears are gone,  
It's like iv'e loved you all along, you're a mirror to my  
soul. with you,  
I finally understand, exactly who I am,  
I know it's god's forever plan, to be, with you.

I can be myself and not pretend,  
Let my true colors show. but still you love me,  
Still you're my best friend.  
Without a word, without a doubt I know.

(Chorus)

Whoa  
Whooooooooaaa

(Chorus)

With you.  
I wanna be with you, every day, every night.  
I wanna be with you.
