I don't know why  
I just can't breath  
It can't be the weather  
Or the place  
I just know that you never tried  
You always calmed me down  
Then took a stride  
So now you'll hear...

Confessions of a broken Heart  
Confessions of a broken dream  
Confessions of a broken love  
Oooh,  
Just listen and  
Then you'll see  
What I mean.

I alway thought that  
You were right  
That someday we'll  
Sneak into the night  
We'll stay together  
All the more

But then you thought of me  
Less and less  
And eventually  
It was distress  
So I just had to pack up  
And leave  
I'm sorry for  
What you said to me  
But you made my life  
Worse and worse  
So now you have to face...

Confessions of a broken heart  
Confessions of a broken dream  
Confessions of a broken love  
How could you do all this to me.

Confessions of a broken heart

You ripped the love right out of me  
Confessions of a broken dream  
I wished it was you and me  
Confessions of a broken love  
I thought that we were meant to be  
We should talk about it  
And then see  
Or maybe you shouldn't talk to me.

Sorry that I just  
Left unknown  
But I did leave you  
This note and song  
A part of me  
You never thought  
But now you'll learn  
How I really felt  
And that it's more than words  
That more than words

Listen closely and you'll  
Hear my voice  
As long as it's quiet  
I'll be in your head  
You'll never forget me  
I'll be in your heart  
Forever and ever  
Until you die  
So listen to me now  
And you'll hear

Confessions of a broken heart  
Confessions of a broken dream  
Confessions of a broken love  
Ooh,  
The real confessions of me

I'll tell you everything right now  
I always thought that we could be  
I hope your listening closely  
Because you gonna remember this  
These are my

Confessions of a broken heart  
You ripped the love right out of me  
Confessions of a broken dream  
I wished it was just you and me  
Confessions of a broken love  
I thought we were meant to be  
Yea  
It's the real confessions of me

I hope you are listening  
To the words I'm saying now  
Sorry that I left unknown  
Sorry that all I left was a note and song  
I'm trying to tell you everything now  
I hope you get the message  
But it's all goodbye for now  
Remember I'm not far away  
I wish that you could see me now  
Just listen closely and you'll see

Now look up into the sky  
Pick out an angel cloud  
When you find it  
That is me

[note being read]  
Bill  
I'm sorry for everything  
I just couldn't take it anymore  
Now everyday there will be a cloud in the sky  
That's shaped like an angel  
I'm sorry that it had to end like this  
But I'll always be in your heart.  
I hope this song says it all  
But now I'm a memory of my friends and family.  
With love,  
Emma

Oooh,  
Confessions of a broken heart  
Confessions of a broken dream  
Confessions of a broken love  
When you wonder who that angel is  
I want to tell you that  
It's really me.
