"With You"

Thought that I had been in love before
But something deep in my heart
Whispered to me there was something more
Now I know you were the missing part.

(Chorus)
With you
All my fears are gone
It's like iv'e loved you all along
You're a mirror to my soul
With you
I finally understand
Exactly who I am
I know it's god's forever plan
To be, with you.

I can be myself and not pretend
Let my true colors show
But still you love me
Still you're my best friend
Without a word
Without a dought I know.

(Chorus)

Whoa
Whoooooaaaa

(Chorus)

With you.
I wanna be with you, every day, every night
I wanna be with you.
