When I saw you I thought i must dream  
But I did not.  
When I heard you I thought I hear an Angel speak  
But I did not.  
When I spoke to you I thought it wil be good  
But it came the other Way.

And all I made was

Refr.:  
For You (for you)  
And me too (for you)  
What can I do to make you believe it's  
For You

Bridge:  
I miss you  
Coz I need you  
Why can't you feel that for me too?

As you told me, that you won't be mine  
I thought I must kill myself  
But why I did not?  
Bad Habit...

All I made was  
Refr.:  
For You (for you)  
And me to (for you)  
What can I do to make you believe it's  
For You?
