If I had your courage and your wisdom  
I could mend me if I had  
If I had your your spirit and your freedom  
It would thrill me if I had

I would dance around the fire

If I had the pleasure of your presence  
I could whole me if I had  
And if I had the secret of your secrets  
To unfold me if I had

I would dance around the fire

If you shared the sweetness in your nature  
I could smooth me if you shared  
And if you shared the wonders of your body  
You could show me if you shared

I would dance around the fire  
I'd rise
