"Little Town"

Visit "[Little Town](#)" on MotoLyrics.com

Moon is a silver ball
Moon is a golden shore
It climbs over little town

Winter is cold and long
Winter is blue and strong
It lays over, over little town

Watch your breathing
No one is on the streets

They all are fast asleep
Like time is here

Oh, little town
Watch your breathing

I'm here standing on
I'm here standing on fire, fire
Not like the others

I'm here standing on
I'm here standing on fire
Unlike the others

Far and away i'm gone
Far and away alone I can't be still
No, oh little town

Must I, must I simplify
Must I, must I tell you why

Must I, must I simplify
Must I, must I tell you why
